Paperback. Book Condition: New. 213 x 140 mm. Language:
English . Brand New Book ***** Print on Demand *****.Prenatal
and Perinatal Psychology has been studying our earliest
development from the baby s point of view for over 30 years.
Findings reveal we are conscious, aware beings who already
have a sense of self as we begin human life. This book explores
the mysteries of our multidimensional nature and the
extraordinary stories babies, children, and adults tell us of their
life in the womb and during birth. Nearly all of today s early
development models and understandings assume biology is
our primary nature and that the capacity for sentience is
dependent on brain development. Our current professional
and parenting practices are built upon these fundamental
assumptions. The Integrated Model of early development
developed in Welcoming Consciousness moves beyond current
biology-first models to embrace both our transcendent and
human perspectives and capacities and evolves how we can
best support babies multidimensional wholeness and human
potential from the beginning of life. The Integrated Model is
built upon clinical findings and extensive review of research in
infant development, prenatal and perinatal psychology,
integral psychology, and consciousness studies. The...
