Chapman and Hall, United Kingdom, 1997. Hardback. Book Condition: New. 1997 ed.. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.The theme of the 1997 INTERACT conference, Discovering New Worlds of HCI , signals major changes that are taking place with the expansion of new technologies into fresh areas of work and leisure throughout the world and new pervasive, powerful systems based on multimedia and the internet. HCI has a vital role to play in these new worlds, to ensure that people using the new technologies are empowered rather than subjugated to the technology that they increasingly have to use. In addition, outcomes from HCI research studies over the past 20 years are now finding their way into many organisations and helping to improve and enhance work practices. These factors have strongly influenced the INTERACT 97 Committee when creating the conference programme, with the result that, besides the more traditional HCI research and education focus found in previous INTERACT conferences, one strand of the 1997 conference has been devoted to industry and another to multimedia. The growth in the IFIP TC13 committee itself reflects the expansion of HCI into new worlds. Membership of IFIP TC13 has risen...
