Mathematical Puzzles and Curiosities (Paperback)

By Barry R. Clarke

Dover Publications Inc., United States, 2013. Paperback. Book Condition: New. 212 x 134 mm. Language: English . Brand New Book. I highly recommend this delightful book. It contains not only excellent puzzles, but also extremely interesting commentaries and anecdotes. Raymond Smullyan, author of *To Mock a Mockingbird* This intriguing mix of thought-provoking diversions offers articles on recreational math as well as puzzles involving logic, mathematics, and creativity. Many of these intellectual challenges first appeared in Barry R. Clarke's *Daily Telegraph* (UK) column, and none requires any background beyond basic algebra skills. Classic puzzles include original takes on *The Monty Hall Problem*, *The Unexpected Hanging*, and *The Sleeping Beauty Problem*. Entirely new offerings include *The Shakespeare Puzzles* and *Finger Multiplication*. A selection of engaging creativity puzzles provides ideal material for group problem-solving sessions. Some of the problems feature hints, and solutions to all of them appear at the end of the book.
