Reviews

Definitely one of the better publication I have got possibly read. It really is writter in basic phrases and not difficult to understand. You wont sense monotony at anytime of your respective time (that's what catalogs are for about if you request me).

Outskirts Press, United States, 2014. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.Secrets of science are hidden in The Holy Bible. God required and inspired Moses and Solomon to include human DNA concepts in the Tabernacle and in the Temple. Stephen L. Avard, Jr., J.D., the author of The Sun Inside Closed Eyes, unveils The DNA Code in the Holy Bible. The DNA Code is not an Equidistant Letter Sequence code. The DNA Code is a concealed code of symbols, numbers, pairs, names, colors, mathematics, and patterns. The DNA Code in the Holy Bible unwraps cellular wisdom to manifest God's creation and His glorious name. Human DNA's numbers, shapes, and components were written down in Exodus and Kings millennia before Watson and Crick's 1953 discovery of the double helix's structure. Take this high concept journey through the mystery of religious science. The unique message will help you see The Holy Bible from a new perspective that is scientific, biological, and timeless. This is a bible study book that combines a personal voice with scholarship. The DNA Code in the Holy Bible shows us that the future of humanity and its DNA will be different from the past. Enter the gate. You will discover The Holy of Holies.
