Or if you lived in 1840, and were told that some day men a thousand miles apart would be able to talk to each other through a little wire--or without any wire at all--that would have been another. Or if, in 1900, they predicted ocean-crossing airplanes and submarines, world-girdling Zeppelins, sixty-story buildings, radio, metal that can be made to resist gravity and float in the air--these would have been other astounding stories.To-day, time has gone by, and all these things are commonplace. That is the only real difference between the astounding and the commonplace--Time. Tomorrow, more astounding things are going to happen. Your children--or their children--are going to take a trip to the moon. They will be able to render themselves invisible--a problem that has already been partly solved. They will be able to disintegrate their bodies in New York and reintegrate them in China--and in a matter of seconds.Astounding? Indeed, yes.Impossible? Well--television would have been impossible, almost unthinkable, ten years ago. Now you will see the kind of magazine that it is our pleasure to offer you beginning with this, the first number of Astounding Stories.THE BEETLE HORDE by VICTOR ROUSSEAU Only Two Young Explorers Stand in the Way of the Mad Bram s Horrible Revenge--the Releasing of His Trillions of Man-sized Beetles upon an Utterly Defenseless World.
