The University of Michigan Press. Hardback. Book Condition: new. BRAND NEW, Technology in American Health Care: Policy Directions for Effective Evaluation and Management, Alan B. Cohen, R.S. Hanft, "The definitive overview of health technology assessment in the U.S. and Europe, the biotech industry, adoption and use of medtech in health care."---The World Future Society, "Best Books and Reports""This excellent book provides a broad overview of the development, impact, and evaluation of health technology in the United States. . . .The authors take a well-organized and thorough approach to address these topics, combining reviews of each with case examples of particular technologies. . . .Given the broad scope of the book, it could serve as a text for students, an introduction to the field for healthcare professionals, or a tool for academics and policymakers wishing to fill knowledge gaps outside their disciplines. . . .The book makes a compelling case for the logic and potential benefits of medical technology evaluation as a tool for improving health care."---"Journal of the American Medical Association" "By being comprehensive in their review, the authors chart a clear path to understanding the future of health care technology in America. They clarify the technical methods for evaluation and provide insight into the sociopolitical aspects of development and diffusion. Case studies are informative. Excellent reading for students and health professionals either as a textbook or as an off-the-shelf guide to methods for deciding among alternative technologies."---Norman W. Weissman, University of Alabama "Technology today dominates every aspect of health care. This useful book offers a diverse range of perspectives for students, professors, and medical practitioners who wish to understand how to evaluate medical technology."---Joel Howell, University of Michigan Medical School "Technology in American Health Care" is a comprehensive, multidisciplinary guide to understanding how medical advances-new drugs, biological devices, and...
