

A Study of School Recesses (Classic Reprint) (Paperback)

By William Harry Heck

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Study of School Recesses How much recess time is given in each grade and what is its proportion to the total school day? Does it vary as the school time varies? How is it distributed in each grade through the day? To what extent do the amount and distribution of the recess time influence each other? The length of the school day for the different grades has mainly been decided by tradition and is changed almost as slowly as religious dogma. But either scientific justification for, or modification of, present schedules is an extremely difficult question, due to the many contributory problems of school hygiene, personal hygiene, curriculum, methods, fatigue, boredom, home and social conditions. Most administrators change the school day only under pressure from outside or inside the system; and those using this pressure, on account of some interest not accommodated by the existing schedule, seldom realize the related problems involved. The present report does not deal directly with this question, which will be studied in detail later on, but only indirectly as...
